The New Addition to the Richman Factory

There are 64,200 square feet of floor space in the new Harlem Avenue Annex of our Factory in Cleveland. It is a fine airy building as light as day, especially designed and built for our purpose—to manufacture a great quantity of fine clothes with no lost motion—to produce clothes that will satisfy every customer because of the Real Honest Value we put into them and at the same time reduce the cost to a minimum.

With the installation of the latest improved machinery, the cost of which is more than the entire capital of many establishments—by methods of manufacture which are the result of our forty-five years' experience together with an organization of more than a thousand men and women, three-quarters of whom own stock in our company.

We tell you about our factory so that you may know the reason why we can sell truly fine clothes for so low a price—we don't want you to think we sell cheap clothes, for we positively do not.

Every suit and overcoat we manufacture is strictly All-Wool—the fabrics are identically the same as cloths which sell for \$35 and \$40—the talioring is equally as good, if not better, and so far as the style of our garments and the fit are concerned, we are positive that there is no clothing in the United States that has more character and fit better than ours.

Just a word about the assortment of our stock. It is at its best right now. Overcoats in every popular style, the old-fashioned Uusters and Chesterfield Overcoats — the new style Ulsterettes—Guard Coats—Box Backs—Rag. lans — Topcoats — Raincoats — Belt Backs — Belt All Around — Detachable Belts, etc. Suits of Worsteds, serges, cassimeres, cheviots, tweeds, ets., in ingle and double-breated models—the English Lounge Suit—Tuxedo Suits.

And remember, please—every suit and overcoat in our store is \$22.50. We don't show you a few at that price and importune you to pay \$40—We have but the one price.

SPECIAL NOTICE

Free Will Offering Accepted Lectures Begin at 8 P. M. Shar

Many housekeepers have found that the Lima News Want Ads provide the best market for obsolete and discarded furniture and other articles of household use.

A HOME HINT

Instead of storing away unnecessary and obsolete home furnishings, such as ice boxes, stoves and floor coverings, draperies and kindred articles, in the attic, cellar or store room, the modern housewife turns such goods into cash or exchanges them for more necessary articles.

An inexpensive Lima News Want Ad has oftentimes been the means of selling home furnishings to the advantage of both the seller and the buyer.

See how the Lima News Wants can help you.

IT'S FALL!

The tang of burning leaves in the air, a soft blue haze about the horizon, the flame of sumac and wild ivy along the roads. Fall, the season when life seems a joyous thing, when we're glad just to be alive and when new clothes have an added appeal.

The touch of frost in the air of a morning warns of the need of warmer clothing for the colder days ahead. Now is the time to anticipate your needs. Choose from complete stocks. Ask for what you want and be able to get it. Don't wait! Don't be disappointed.

Karpen guaranteed construction on every piece your assurance of quality. You buy your piano, your phonograph, your automobile, by name. You wouldn't for one moment think of selecting one of the three without a name. Do you realize what it means to buy furniture, also, that the maker is proud to designate with his name? Do you realize that it's your assurance of value—of dependable workmanship, that promises durability, making the owner's satisfaction permanent! Then—why put your money into unnamed, unknown furniture? Buy at Bond's where quality furniture is sold that bears the maker's name.

To Hallowe'en Joken

Dear Friends: Please be considerate tonight. I always am glad to see the young folks having a good time, but there is a limit beyond which you must not go. Have a little consideration for the feelings and property of others.

The big mardi gras will be a source of entertainment in which I hope ail of you participate. It will be a real, old time gathering where everyone may have a good time. 0 0 0 To School Board Members

Educators: Your idea regarding the use of portable school houses in Lima leaves me somewhat at a loss. These small portable buildings do not seem to be the best thing for the pupils who will be asked to attend classes in them and it seems to me there would be a certain amount of danger to the health of the children. Also it seems strange to me that during the congestion in the past it was not necessary to have portable school houses. There are, however. certain good points in their use and it may be that when I become more familiar with them I will like them better. I hope, however, it will not be necessary to use them for a meat length of time.

The boy is supposed to give orders in either confectionaries or restaurants. I have heard it said that toilet water makes the hair dry and brittle and if you have been using any great amount of it, that is probably the cause of your falling hair. Sometimes lack of brushing makes the scalp diseased and then the hair falls. Brush your hair thoroly before retiring and don't use any more tollet water on it and you will

probably see change in the condition of your hair and scale. Your girl friend should not feel badly that she is not keeping steady company with any young man. In fact I think she is quite fortunate. Nineteen is too young to begin to be serious in their love affairs and if a girl keeps steady company she is almost certain to plan for your future and home and, too, if you are keeping steady company other boys will refrain from asking you for dates. At the Quilna

The story was adapted to the falls in love with her, The story was adapted to the screen by Willis Goldbeck and was written by Paul Morand, the French novelist. The unusually entertaining plot revolves around the annual six-day blke race in the annual six-day bike race in Paris and the action takes place in less than twenty-four hours. It relates the story of a beautiful young society woman and her efforts to break down the monotonous routine of her sheltered life.

Viola Dana's piquant personality is particularly fascinating in the role of the pampered wife. Opposite her, in the role of the too polished, too sophisticated husband, is Adolphe Menjou. Jetta Goudal, who created a sensation in "Simon Called Peter" when it appeared on the stage was brought to the Paramount studio to play in the picture and her performance is one of outstanding merit. Raymond Grif-fith, as usual, is excellent in a light comedy character.

"Open All Night" has as its added features Quilna News and "Felix the Movie Cat."

The picture is full of the swiftest action—action that grips the spectator with its story of human hearts struggling toward a great happiness.

"The Mine with the Iran Theory"

"The Mine with the Iron Door' advance notices received in Lima this week indicate. The company is said to have been very well received everywhere they have presented their particular type of entertainment.

In the cast will be found Pierre Akey. eBarrice Lewis, Russell tiutterbuck, June DeVay, William Sheldon, Johnny Knott, Edna Brewer, Master Monroe Kirkland and others.

"The Mine with the Iron Door" is presented with a genuine all-star cast which is headed by Pat O'Mailley, in the role of the hero, with Dorothy Mackaill, in the leading feminine role. Supporting these two sterling players are Robert Fraser, Creighton Hale, Mary Carr, Charles Murray. Mitchell Lewis, Bert Woodruff, Raymond Hatton and William Collier. It will remain until Sunday.

reached at seven-thirty o'clock and six o'clock respectively.

"Between these morning and evening critical periods," the report said, "is one which might be called the noon period, that is from eleven a. m. to one n. m. from eleven 2. m., to one p. m., associated with the practice of shot-firing at noon."

PEAK OF CRITICAL PERIOD

The peak of the morning criti-cal period, the engineers found, indicated "an emphasized hazard from gas ignition while the aft-ernoon peak hinged upon "the practice of shot-firing in the

erening. Recommendations set forth in the engineers' report suggested that "extra vigilance" should be exercised in coal-mining opera-tions at the critical periods. Particular stress was made on pre-cautions during the morning peried. Many of the worst explosions, the report said, have taken place in the morning, largely due to the accumulation of gas during the night.

Explaining that one explosion costing nearly 100 lives was "directly caused by the evident in-ability of the fire boss to inspect his section," the report urged that areas assigned to each fire boss be diminished in size to afford careful examination.

"While firebosses generally try to examine for gas before the men enter the mine in the morning," the report raid, "sometimes, owing to there being too many working places to inspect, or to taking a chance, some place is neglected, with the result that miners entering therein with open lights ignite an accumula-tion of gas. The period lapsing

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulaified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it souther and he the inflamed membranes and and besis the inflamed membranes and

kills the germ.

Of all known drugs, creosote is recognized by the medical fratermty as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troublet.

Creomulation contains, in addition to creosete, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and determs the neutral that lead to and destroys the germs that lead to

consumption.
Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat nd lung diseases, and if excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long stand ing, is not relieved after taking according to directions. Ask your druggist Creomulsion Co., Atlanta, Ga. (Adv.)

Lightest Food Brought on Dis. tress; Plant Juice Ends Stomach Trouble

and has made me feel like an en-tirely different woman." declared Mrs. J Bishop, popular lady of

MRS. J. BISHOP

Toledo, Ohio, living at 528 Geneva street, that city, while talk-ing recently with The Plant Juice

t seemed to affect my whole system, Mrs Bishop continued Finally, it got so that just a piece of toast would make me Food did not digest but would turn to gas in my stomach and bring on bloating attacks and frequently it feit like there was a hard lump in my stomach, especially at night 1 was dizzy, had pains in my back and was weak and run down all over and so restless and nervous that it was almost impossible for me to get any real sleep or rest. I al-ways felt completely tired out. But I began to improve at once when I started on Plant

ful change in me. My stomach is so much better that I can eat most anything I want and do not suffer afterward I am not nervous or restless as I was before; sleep well, and get up mornings refreshed. My kidneys are improved and the pains are nearly all gone from my back. I do not feel weak as I did before and, in short. I am like an entirely dif-
